Geography Year 5: Spring Term

Place Knowledge

How to make a location more sustainable

Install renewable energy sources such as solar panels or a wind turbine.

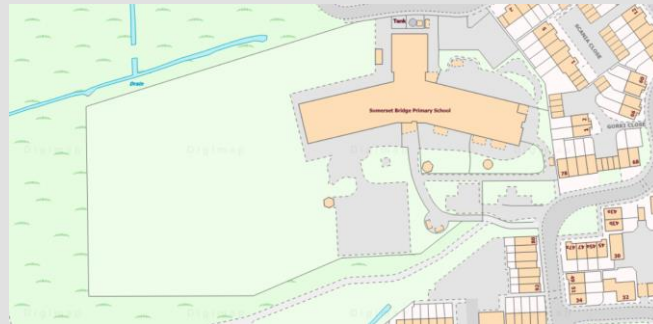

Set aside areas for wild flowers to grow to encourage insects into the area.

Make sure there are enough bins to put rubbish in and regularly pick up any litter.

Have compost bins so that food waste and plant materials can be composted.

Encourage wildlife into the area by putting in nest boxes, hedgehog houses and bug hotels.

A map of our school grounds

Key Vocabulary

Human features	Something that is made by nature, such as trees and bushes.
Physical features	Something that has been made by people, such as play equipment.
County	A geographical region of a country used for administrative purposes.
