Multimedia

Video Editing

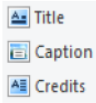

Plan a **storyboard** of your movie first so you know what media to collect and capture for it.

Insert and arrange videos on a **timeline**.

Trim and adjust their duration.

Type on **text**.

Add a **soundtrack** to suggest a tone (e.g. upbeat, scary). Put **transitions** between clips.

Record a **voiceover** narration.

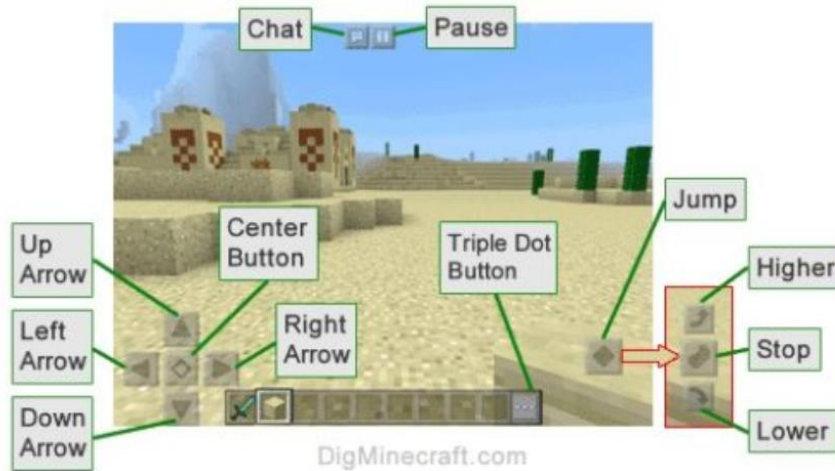

Apply **pan** and **zoom** effects to create motion and highlight things.

Programming - Minecraft

Building an Island location in Minecraft.

Mine/Destroy Item	Tap target location and hold
Jump	Jump button (tap once)
Fly (Creative)	Jump button (tap twice)
Stop Flying (Creative)	Stop button (tap twice)
Fly Higher (Creative)	Higher button
Fly Lower (Creative)	Lower button

Key Vocabulary

Features	Key elements that belong to a program.
Location	A place where you put an object or travel to.
Caution	Be careful before using these.
Capture	Take a picture of an image on a device.
Screenshot	Take a picture of a screen.
Combine	Bring different ideas together.
Media	Photo, video or ideas that communicates ideas.

E-Commerce

- ✓ Always **get the bill payer's permission** before checking out.
- ✓ **Only shop on trusted sites** so you aren't a victim of fraud.

- ✓ **Be aware that cookies track which pages you visit** so shops may send you targeted adverts or change their prices.

Vlogging

- ✓ **Stream over WiFi** as it's faster and cheaper than using mobile data.
- ✓ **Make your own, original content** so you aren't breaking copyright laws.
