

Somerset Bridge Primary School  
Aspire - Brave - Care - Collaborate

# Year 6 - Computing - Summer

## Internet and World Wide Web

### Internet Services

The Internet is useful because it lets **people communicate** and **share information** across the world **quickly** and **easily**.

Message friends, share photos and find followers.

Send messages to people and collaborate on ideas.

#### Social Media

#### Communication

#### Internet Services

#### Broadcasting

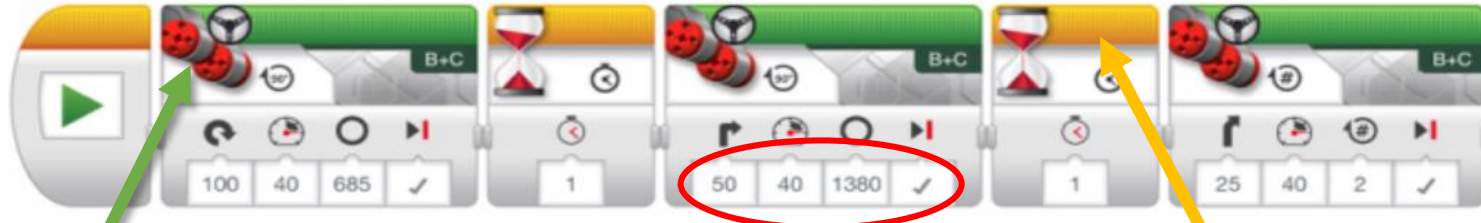

#### World Wide Web

Stream videos, listen to radio stations and watch programmes on catch-up.

View pages of multimedia information about different topics.

## LEGO EV3 MINDSTORMS APP

Green controls medium and large motor, steering and sound.

Yellow has start, wait, loop and switch.

Each block has adjustable numbers for turn, angle and repeat.

### Key Vocabulary

Key Vocabulary		✓
Client	The computer that holds the webpage that you are looking for.	
Router	A computer <b>whose software and hardware are designed to move data between computer networks</b> . Routers make sure traffic between computers goes where it needs to go.	
Ranked	To place in order based on how closely they answer your question/query.	
URL (Uniform Resource Locator)	Another name for a web address. URLs are made of letters, numbers and other symbols in a standard form.	

### Comparing Search Engines

Which has the *nicest design?*

Which shows you the most *useful results?*

Which includes *fact boxes* in the results?

Which has the *fewest adverts?*
