Dear Parent/Carer,

Back by popular demand - Our Science Fair!

You may have heard from your children already that I had the pleasure of launching our next Science Fair in assembly earlier in the week.

This is an opportunity for children to show off their science skills and design a project that answers a question that they are curious about. The theme this year is curiosity. If they would like to participate, children need to design an experiment to investigate a question they are curious about and present it on a board to display at the Fair.

We will be celebrating our Science Fair on Tuesday 21st April, giving them the rest of term and the Easter break to work on their projects. If your child would like to participate, they need to bring their completed project and display into school for **Monday 20th April**.

If you feel your child would benefit from additional time in school to complete their project, please speak to their class teacher.

Please remember that this is an **optional** activity and there is no obligation for your child to take part, but all children in school will have the opportunity to look at the projects during the day on Tuesday 21st April.

If you have any questions about our Fair, please contact your child's teacher.

Yours faithfully

Miss Strode
Science Subject Leader
